## Input

What went in  
ntroduced a dance item for the seniors' batch  
Began preparation for the February performances  
Started the learning and rehearsal process early

Time  
1.3 hours

## Activity

We began teaching a dance item to the seniors' batch in preparation for their performances in February. Preparing students for a performance takes time, practice and continued learning, so we are starting early. Regular rehearsal will help the students become familiar with the item and work towards performing it with confidence and accuracy.

## Outcome

Confidence in movement   Knowing the art form

The seniors' batch has begun learning the item and preparing for the upcoming performance. Starting early gives them time to practise, strengthen their understanding and work towards a polished presentation.

(We observed it)

## Learnings

Performance preparation is a gradual process. Beginning early gives students time to learn the choreography, practise consistently and build confidence before taking the stage.
