

SATURDAY 20 JUNE 2026

Children pulled DNA out of a kiwi fruit

Took part **7**
Where **aikyam space, Fort Kochi**
Run by **Olimalar Foundation**

Facilitators **1**
Club **Curiosity Club**

The science class explored cells and DNA, helping children understand how living things are built. During the session, students took part in a hands-on experiment to extract DNA from a kiwi fruit. The activity generated a lot of curiosity and questions, showing that practical experiments can make science easier to understand and more engaging for children.
