Community program brings learning and conversations together

Took part **97**
Where **aikyam space, Fort Kochi**

Facilitators **10**
Run by **aikyam space**

Community members came together at the space on 12 May 2024 for a day of learning, creative activities and conversation. Children took part in learning and creative sessions, while women joined a workshop focused on skills and livelihood opportunities. We designed the program to increase participation at the space, support children's learning, and help women connect with each other and explore new possibilities.
