Run by **aikyam space**

On the night of January 25–26, seventeen women, most of them first-time hackers, built seven projects in eighteen hours. Gouri took first place with a travel companion website and earned a badge and a certificate. Sahil, Jinso and Abhiram mentored and judged. The event was one of 60+ Kerala venues in TinkerHub's 4000-women hackathon initiative.
